"BUY OR BID"

SPECIAL CLEARANCE SALE OF LATIN AMERICAN COINS

In the normal course of acquiring coins for our auctions and private collector wantlist we end up with numerous additional items which we would not have selected on their individu merits. These items are the type that often form the bulk of a dealer's inventory. Howeve we prefer not to have copious quantities of such items. Thus we find it necessary to se them at "wholesale" levels in order to avoid the rigors of retail placement. This sa is designed to serve that function.

This is a fixed-pricelist from date of issuance through June 6. All items are availab for immediate purchase on the usual first-come first-served basis at the price listed the first column ("wholesale").

All items remaining unsold on June 6 will become auction lots. The "reserve" price indicat in the second column is the lowest bid we would accept for each item.

Thus you can immediately purchase any pieces at the "wholesale" price through June 6 bid for them at a lower price in the June 7 auction!

Auction bids must be in whole-dollar units and should be less than the "wholesale" figu but equal to or greater than the "reserve" price. Obviously, bidders would be wise to b somewhat above the "reserve" in order to win lots from those who routinely bid exactly t lowest possible amount (i.e., the reserve).

In defense of these coins and the many collectors who will appreciate them on their merit we acknowledge that they are not junk or "second-quality" items for the most part. The are many superior and scarce pieces listed herein but they are generally not of "aucti quality". Since we are now focusing most of our energy toward our semi-annual auction these coins are available at less than typical retail.

A final comment for auction bidders: Of the 844 lots in our similar March 1984 sale, 3 sold at the column 1 price and 52% in the auction. It is worth your time to prepare a l of bids!

Bargains will be plentiful. The auction "reserve" price is below our cost 70% or more the time. We are anxious to reduce our inventory; this is not designed as a money-maki project. Take advantage of this opportunity.

Alternates are solicited, and will be used as such, in both the fixed-pricelist and auctio phases. You can also place a "*spending cap*" (any limit you state) in both segments.

Credit is available for six months with a 25% downpayment. Inquire if interested.

We look forward to your orders and your bids. Both can be sent simultaneously by usir the bid sheet at the back of this catalogue.

There are *five* sections to this sale: 1) CROWNS, (2) MINORS over $20, and (3) MINORS unde $20; 4) Coins of Ecuador; and 5) Numismatic books and catalogues.
